

Mouse Na-K-ATPase ELISA Kit | Na-K-ATPase elisa kit

Mouse Na-K-ATPase ELISA Kit

CATALOG #
AAA207737

REACTIVITY
Mouse

PRODUCT SYNONYMS

Na-K-ATPase; Mouse Na-K-ATPase ELISA Kit; Na-K-ATPase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sensitivity	0.1 umol/mL

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Na-K-ATPase elisa kit

Intended Uses: This NA-K-ATPASE ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of NA-K-ATPASE in the sample, this NA-K-ATPASE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus NA-K-ATPASE concentration. The concentration of NA-K-ATPASE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
