

## Mouse Heat Shock Protein 90alpha ELISA Kit

Mouse Heat Shock Protein 90alpha ELISA Kit

CATALOG #  
**AAA207898**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

Heat Shock Protein 90alpha; Mouse Heat Shock Protein 90alpha ELISA Kit; Heat Shock Protein 90alpha elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Mouse                                                             |
| Sequence Length | 730                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 4ng/ml-64ng/ml                                                    |
| Sensitivity     | 0.1 ng/ml                                                         |

### ADDITIONAL INFORMATION

#### Related Product Information for Heat Shock Protein 90alpha elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of HEAT SHOCK PROTEIN 90alpha in the sample, This HEAT SHOCK PROTEIN 90alpha ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus HEAT SHOCK PROTEIN 90alpha concentration. The concentration of HEAT SHOCK PROTEIN 90alpha in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                         |                            |
|-------------------------|----------------------------|
| NCBI GI #               | 761895487                  |
| NCBI Official Full Name | heat shock protein 90alpha |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
