

Mouse Chymase Mast Cell ELISA Kit

Mouse Chymase Mast Cell ELISA Kit

CATALOG #
AAA207993

REACTIVITY
Mouse

PRODUCT SYNONYMS

Chymase Mast Cell; Mouse Chymase Mast Cell ELISA Kit; Chymase Mast Cell elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sensitivity	1 pg/mL
Intra-assay Precision	Intra-assay CV is less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

Related Product Information for Chymase Mast Cell elisa kit

Intended Uses: This CHYMASE MAST CELL ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of CHYMASE MAST CELL in the sample, this CHYMASE MAST CELL ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus CHYMASE MAST CELL concentration. The concentration of CHYMASE MAST CELL in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
