

## Mouse T-CHO ELISA Kit | T-CHO elisa kit

Mouse T-CHO ELISA Kit

CATALOG #  
**AAA208059**

REACTIVITY  
**Mouse**

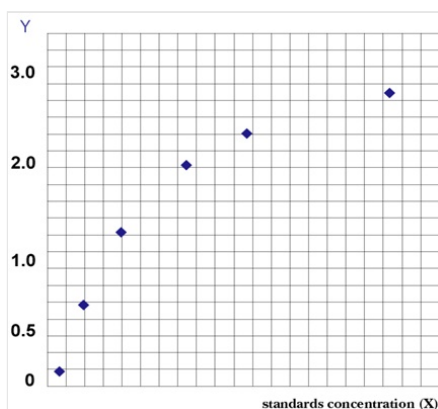

### PRODUCT SYNONYMS

T-CHO; Mouse T-CHO ELISA Kit; T-CHO elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Mouse                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 2.5 U/mL-40 U/mL                                                  |
| Sensitivity     | 0.1 U/ml                                                          |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for T-CHO elisa kit

**Intended Use:** The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Mouse T-CHO in the sample, This Mouse T-CHO ELISAKit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Mouse T-CHO concentration. The concentration of Mouse T-CHO in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
