

## Mouse Ghrelin ELISA Kit | ghrl elisa kit

Mouse Ghrelin ELISA Kit

CATALOG #  
**AAA208062**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

Ghrelin; Mouse Ghrelin ELISA Kit; ghrl elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Mouse                                                             |
| Sequence Length | 111                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 62.5 pg/ml-1000 pg/ml                                             |
| Sensitivity     | 1 pg/ml                                                           |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for ghrl elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of GHRELIN in the sample, This GHRELIN ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus GHRELIN concentration. The concentration of GHRELIN in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                  |                                |
