

Mouse Liver Kidney Microsome Autoantibody (Anti-LKM) ELISA Kit | LKM elisa kit

Mouse Liver Kidney Microsome Autoantibody (Anti-LKM) ELISA Kit

CATALOG #
AAA208083

REACTIVITY
Mouse

PRODUCT SYNONYMS

Liver Kidney Microsome Autoantibody (Anti-LKM); Mouse Liver Kidney Microsome Autoantibody (Anti-LKM) ELISA Kit; LKM elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sensitivity	1 ng/mL
Intra-assay Precision	Intra-assay CV less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for LKM elisa kit

Intended Uses: This Anti-LKM ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Anti-LKM in the sample, this Anti-LKM ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Anti-LKM concentration. The concentration of Anti-LKM in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
