

Mouse Ganglioside (Anti-GLS) ELISA Kit | GLS elisa kit

Mouse Ganglioside Antibody (Anti-GLS) ELISA Kit

CATALOG #
AAA208126

REACTIVITY
Mouse

PRODUCT SYNONYMS

Ganglioside (Anti-GLS); Mouse Ganglioside Antibody (Anti-GLS) ELISA Kit; GLS elisa kit

PRODUCT SPECIFICATIONS

Reactivity

Mouse

ADDITIONAL INFORMATION

Related Product Information for GLS elisa kit

Intended Uses: This ANTI-GLS ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of ANTI-GLS in the sample, this ANTI-GLS ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus ANTI-GLS concentration. The concentration of ANTI-GLS in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
