

Mouse I Factor Complement Fragment 3b ELISA Kit

Mouse I Factor Complement Fragment 3b ELISA Kit

CATALOG #
AAA208185

REACTIVITY
Mouse

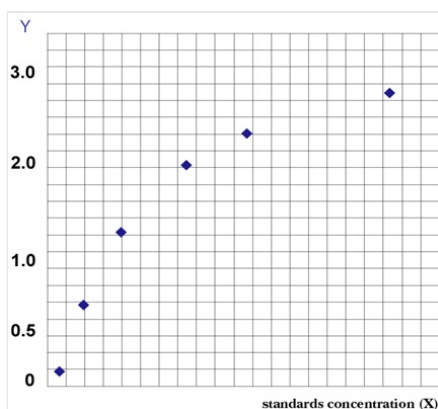

PRODUCT SYNONYMS

I Factor Complement Fragment 3b; Mouse I Factor Complement Fragment 3b ELISA Kit; I Factor Complement Fragment 3b elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	2ng/ml-32ng/ml
Sensitivity	0.1 ng/ml

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for I Factor Complement Fragment 3b elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Mouse I factor complement fragment 3b in the sample, This Mouse I factor complement fragment 3b Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Mouse I factor complement fragment 3b concentration. The concentration of Mouse I factor complement fragment 3b in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
