

## Mouse Latent Membrane Protein-1 ELISA Kit

Mouse Latent Membrane Protein-1 ELISA Kit

CATALOG #  
**AAA208407**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

Latent Membrane Protein-1; Mouse Latent Membrane Protein-1 ELISA Kit; Latent Membrane Protein-1 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Mouse                                                             |
| Sequence Length | 54                                                                |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 1.25ng/ml-20ng/ml                                                 |
| Sensitivity     | 0.1 ng/ml                                                         |

### ADDITIONAL INFORMATION

#### Related Product Information for Latent Membrane Protein-1 elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of LATENT MEMBRANE PROTEIN-1 in the sample, This LATENT MEMBRANE PROTEIN-1 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus LATENT MEMBRANE PROTEIN-1 concentration. The concentration of LATENT MEMBRANE PROTEIN-1 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                         |                                    |
|-------------------------|------------------------------------|
| NCBI GI #               | 6653380                            |
| NCBI Official Full Name | latent membrane protein-1, partial |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
