

Mouse Serotonin Transporter ELISA Kit

Mouse Serotonin Transporter ELISA Kit

CATALOG #
AAA208423

REACTIVITY
Mouse

PRODUCT SYNONYMS

Serotonin Transporter; Mouse Serotonin Transporter ELISA Kit; Serotonin Transporter elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	630
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	125 pg/ml-2000 pg/ml
Sensitivity	10 pg/ml

ADDITIONAL INFORMATION

Related Product Information for Serotonin Transporter elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SEROTONIN TRANSPORTER in the sample, This SEROTONIN TRANSPORTER ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SEROTONIN TRANSPORTER concentration. The concentration of SEROTONIN TRANSPORTER in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	300444
NCBI Official Full Name	serotonin transporter, serotonin uptake site, 5-HT uptake site

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
