

## Rat Beta-Hexosaminidase A (beta-HEX A) ELISA Kit | beta-HEXA elisa kit

Rat beta-Hexosaminidase A (beta-HEX A) ELISA Kit

CATALOG #  
**AAA208607**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

Beta-Hexosaminidase A (beta-HEX A); Rat beta-Hexosaminidase A (beta-HEX A) ELISA Kit; beta-HEXA elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Rat                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 3 mug/ml-48 mug/ml                                                |
| Sensitivity     | 0.1 mug/ml                                                        |

### ADDITIONAL INFORMATION

#### Related Product Information for beta-HEXA elisa kit

**Intended Use:** The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of beta-HEX A in the sample, This beta-HEX A ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus beta-HEX A concentration. The concentration of beta-HEX A in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
