

## Rat Interferon-Inducible Protein 10 (IP-10) ELISA Kit | IP-10 elisa kit

Rat Interferon-Inducible Protein 10 (IP-10) ELISA Kit

CATALOG #  
**AAA208811**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

Interferon-Inducible Protein 10 (IP-10); Rat Interferon-Inducible Protein 10 (IP-10) ELISA Kit; IP-10 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Rat                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 10 pg/ml-160 pg/ml                                                |
| Sensitivity     | 1 pg/ml                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for IP-10 elisa kit

**Intended Use:** The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of IP-10 in the sample, This IP-10 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus IP-10 concentration. The concentration of IP-10 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
