

Rat Testosterone (T) ELISA Kit

Rat Testosterone (T) ELISA Kit

CATALOG #
AAA208819

REACTIVITY
Rat

PRODUCT SYNONYMS

Testosterone (T); Rat Testosterone (T) ELISA Kit; Testosterone (T) elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	20 pg/ml-320 pg/ml
Sensitivity	1 pg/ml

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Testosterone (T) elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of T in the sample, This TKit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus T concentration. The concentration of T in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
