

Rat Calmodulin Dependent Protein Kinase II ELISA Kit

Rat Calmodulin Dependent Protein Kinase II ELISA Kit

CATALOG #
AAA209674

REACTIVITY
Rat

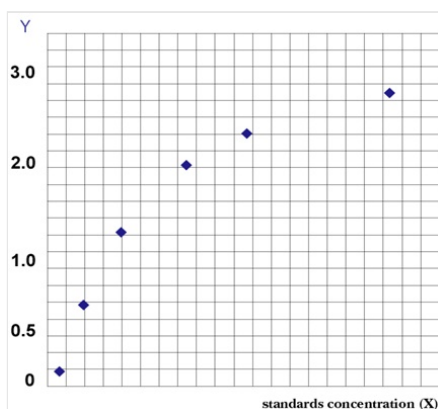

PRODUCT SYNONYMS

Calmodulin Dependent Protein Kinase II; Rat Calmodulin Dependent Protein Kinase II ELISA Kit; Calmodulin Dependent Protein Kinase II elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	20 U/L-320 U/L
Sensitivity	1 U/L

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Calmodulin Dependent Protein Kinase II elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Rat Calmodulin dependent protein kinase II in the sample, This Rat Calmodulin dependent protein kinase II Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Rat Calmodulin dependent protein kinase II concentration. The concentration of Rat Calmodulin dependent protein kinase II in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
