

Rat Kappa Immunoglobulin Light Chain ELISA Kit

Rat Kappa Immunoglobulin Light Chain ELISA Kit

CATALOG #
AAA209961

REACTIVITY
Rat

PRODUCT SYNONYMS

Kappa Immunoglobulin Light Chain; Rat Kappa Immunoglobulin Light Chain ELISA Kit; Kappa Immunoglobulin Light Chain elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Sequence Length	99

ADDITIONAL INFORMATION

Related Product Information for Kappa Immunoglobulin Light Chain elisa kit

Intended Uses: This kappa-IGLC ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of kappa-IGLC in the sample, this kappa-IGLC ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus kappa-IGLC concentration. The concentration of kappa-IGLC in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	306976
NCBI Official Full Name	kappa-immunoglobulin, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
