

## Rat HMG-CoA ELISA Kit | HMG-CoA elisa kit

Rat HMG-CoA ELISA Kit

CATALOG #  
**AAA210016**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

HMG-CoA; Rat HMG-CoA ELISA Kit; HMG-CoA elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Rat                                                               |
| Sequence Length | 455                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 1.25ng/ml-20ng/ml                                                 |
| Sensitivity     | 0.1 ng/ml                                                         |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for HMG-CoA elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of HMG-CoA in the sample, This HMG-CoA ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus HMG-CoA concentration. The concentration of HMG-CoA in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                         |                                    |
|-------------------------|------------------------------------|
| NCBI GI #               | 488134                             |
| NCBI Official Full Name | hydroxymethylglutaryl-CoA synthase |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
