

## Rat Interleukin 16 (IL-16) ELISA Kit | IL-16 elisa kit

Rat Interleukin 16 (IL-16) ELISA Kit

|                               |                          |
|-------------------------------|--------------------------|
| CATALOG #<br><b>AAA210193</b> | REACTIVITY<br><b>Rat</b> |
|-------------------------------|--------------------------|

### PRODUCT SYNONYMS

Interleukin 16 (IL-16); Rat Interleukin 16 (IL-16) ELISA Kit; IL-16 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Rat                                                               |
| Sequence Length | 130                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 25 pg/ml-400 pg/ml                                                |
| Sensitivity     | 1 pg/ml                                                           |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for IL-16 elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of IL-16 in the sample, This IL-16 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus IL-16 concentration. The concentration of IL-16 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION
