

## Rat Ferric Proteinase 12 ELISA Kit

Rat Ferric Proteinase 12 ELISA Kit

CATALOG #  
**AAA210355**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

Ferric Proteinase 12; Rat Ferric Proteinase 12 ELISA Kit; Ferric Proteinase 12 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Rat                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 250 pg/ml-4000 pg/ml                                              |
| Sensitivity     | 10 pg/ml                                                          |

### ADDITIONAL INFORMATION

#### Related Product Information for Ferric Proteinase 12 elisa kit

**Intended Use:** The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of FERRIC PROTEINASE 12 in the sample, This FERRIC PROTEINASE 12 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus FERRIC PROTEINASE 12 concentration. The concentration of FERRIC PROTEINASE 12 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
