### PRODUCT SYNONYMS

QRICH1; Polyclonal Antibody; Rabbit anti-QRICH1 Antibody; Affinity Purified; AB-DIP; glutamine-rich protein 1; VERBRAS; Glutamine-rich protein 1; glutamine rich 1; anti-QRICH1 antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                           |
|--------------------------------------------------|-------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                    |
| Reactivity                                       | Human, Mouse                                                                              |
| Clonality                                        | Polyclonal                                                                                |
| Purity/Purification                              | Antigen Affinity Purified                                                                 |
| Form/Format                                      | Liquid. Whole IgG. Tris-citrate/phosphate buffer, pH 7 to 8 containing 0.09% Sodium Azide |
| Concentration                                    | 1000ug/ml (varies by lot)                                                                 |
| Applicable Applications for anti-QRICH1 antibody | IP (Immunoprecipitation), WB (Western Blot)                                               |
| Predicted Reactivity                             | Bovine                                                                                    |
| Immunogen                                        | Between 250 and 300                                                                       |
| Conjugation                                      | Unconjugated                                                                              |
| Preparation and Storage                          | Store at 2-8 degree C<br>Shelf Life: 1 year from date of receipt                          |

### IMAGES

#### WB (Western Blot)

Detection of human QRICH1 by western blot. Samples: Whole cell lysate (25 ug) from HEK293T, HeLa, Jurkat, and RKO cells prepared using NETN lysis buffer. Antibody: Affinity purified rabbit anti-QRICH1 antibody (AAA213016 lot 2) used for WB at 0.1 ug/ml. Detection: Chemiluminescence with an exposure time of 3 minutes.

#### WB (Western Blot)

Detection of human QRICH1 by western blot. Samples: Whole cell lysate (50 ug) from NIH 3T3, CT26, and CH27 cells prepared using NETN lysis buffer. Antibody: Affinity purified rabbit anti-QRICH1 antibody (AAA213016 lot 2) used for WB at 0.1 ug/ml. Detection: Chemiluminescence with an exposure time of 75 seconds.

#### IP (Immunoprecipitation)

Detection of human QRICH1 by western blot of immunoprecipitates. Samples: Whole cell lysate (1.0 mg per IP reaction; 20% of IP loaded) from HEK293T cells prepared using NETN lysis buffer. Antibodies: Affinity purified rabbit anti-QRICH1 antibody (AAA213016 lot 2) used for IP at 6 ug per reaction. QRICH1 was also immunoprecipitated by a previous lot of this antibody (AAA213016 lot 1) and a second antibody against a different epitope of QRICH1 (BL19396). For blotting immunoprecipitated QRICH1, AAA213016 was used at 1 ug/ml. Detection: Chemiluminescence with an exposure time of 1 second.
