

Human CRH ELISA Kit | CRH elisa kit

Human CRH (Corticotropin Releasing Hormone) ELISA Kit

CATALOG #
AAA21601

REACTIVITY
Human

PRODUCT SYNONYMS

CRH; Human CRH (Corticotropin Releasing Hormone) ELISA Kit; CRH elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This kit recognizes Human CRH in samples. No significant cross-reactivity or interference between Human CRH and analogues was observed.
Sequence Length	55
Assay Type	Quantitative Competitive
Samples	Serum, plasma and other biological fluids
Detection Range	3.91-250pg/mL
Sensitivity	2.35pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, mid range and high level Human CRH were tested 20 times on one plate, respectively.
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, mid range and high level Human CRH were tested on 3 different plates, 20 replicates in each plate.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for CRH elisa kit	Principle of the Assay: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Human CRH. During the reaction, Human CRH in the sample or standard competes with a fixed amount of Human CRH on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Human CRH. Excess conjugate and unbound sample or standard are washed from the plate, and Avidin conjugated to Horseradish Peroxidase (HRP) are added to each microplate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color change is measured spectrophotometrically at a wavelength of 450 nm ± 2 nm. The concentration of Human CRH in the samples is then determined by comparing the OD of the samples to the standard curve. Intended Uses: This ELISA kit applies to the in vitro quantitative determination of Human CRH concentrations in serum, plasma and other biological fluids.

NCBI AND UNIPROT INFORMATION

NCBI GI #	336295751
Molecular Weight	5,876 Da
NCBI Official Full Name	Crh
UniProt Protein Name	Crh
UniProt Gene Name	crh
UniProt Entry Name	F8FKZ4_PAEMK

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
