

Mouse Lipase, Hepatic (LIPC) RTU ELISA Kit | LIPC rtu elisa kit

Mouse Lipase, Hepatic (LIPC) ELISA Kit

CATALOG #
AAA216806

REACTIVITY
Mouse

PRODUCT SYNONYMS

Lipase; Hepatic (LIPC); Mouse Lipase; Hepatic (LIPC) ELISA Kit; HL; HTGL; Hepatic Lipase; Hepatic triacylglycerol lipase; Lipase member C; LIPC rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	510
Assay Type	Sandwich
Samples	Serum, Plasma, Tissue Homogenates or Other Biological Fluids.
Detection Range	0.312-20ng/mL
Sensitivity	0.119ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for LIPC rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to LIPC. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to LIPC. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain LIPC, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of LIPC in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #

1026191053

NCBI GeneID	15450
NCBI Accession #	NP_001311401.1
NCBI GenBank Nucleotide #	NM_001324472.1
UniProt Accession #	P27656 ; Q8VC44
Molecular Weight	57,389 Da
NCBI Official Full Name	hepatic triacylglycerol lipase isoform 1
NCBI Official Synonym Full Names	lipase, hepatic
NCBI Official Symbol	Lipc
NCBI Official Synonym Symbols	HL; Hpl; AI256194
NCBI Protein Information	hepatic triacylglycerol lipase
UniProt Protein Name	Hepatic triacylglycerol lipase
UniProt Gene Name	Lipc
UniProt Synonym Gene Names	Hpl; HL; Hepatic lipase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
