

Rat Midkine (MK) RTU ELISA Kit | MK rtu elisa kit

Rat Midkine (MK) ELISA Kit

CATALOG #
AAA217070

REACTIVITY
Rat

PRODUCT SYNONYMS

Midkine (MK); Rat Midkine (MK) ELISA Kit; MDK; ARAP; NEGF2; Neurite Growth-Promoting Factor 2; Amphiregulin-associated protein; Midgestation and kidney protein; Neurite outgrowth-promoting factor 2; MK rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Sequence Length	140
Assay Type	Sandwich
Samples	Serum, Plasma or Other Biological Fluids.
Detection Range	15.6-1000pg/mL
Sensitivity	7.2pg/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for MK rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to MK. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to MK. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain MK, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of MK in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	13540681
NCBI GeneID	81517
NCBI Accession #	NP_110486.1
NCBI GenBank Nucleotide #	NM_030859.2
UniProt Accession #	Q9R1S9
Molecular Weight	15,406 Da
NCBI Official Full Name	midkine
NCBI Official Synonym Full Names	midkine
NCBI Official Symbol	Mdk
NCBI Protein Information	midkine
UniProt Protein Name	Midkine
UniProt Gene Name	Mdk
UniProt Synonym Gene Names	MK

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
