

Rat Myelin Oligodendrocyte Glycoprotein (MOG) RTU ELISA Kit | MOG rtu elisa kit

Rat Myelin Oligodendrocyte Glycoprotein (MOG) ELISA Kit

CATALOG #
AAA217147

REACTIVITY
Rat

PRODUCT SYNONYMS

Myelin Oligodendrocyte Glycoprotein (MOG); Rat Myelin Oligodendrocyte Glycoprotein (MOG) ELISA Kit; MOG rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Sequence Length	245
Assay Type	Sandwich
Samples	Tissue Homogenates or Other Biological Fluids.
Detection Range	0.156-10ng/mL
Sensitivity	0.057ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for MOG rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to MOG. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to MOG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain MOG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of MOG in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #

2497314

NCBI GeneID	24558
UniProt Accession #	Q63345
Molecular Weight	27,882 Da
NCBI Official Full Name	Myelin-oligodendrocyte glycoprotein
NCBI Official Synonym Full Names	myelin oligodendrocyte glycoprotein
NCBI Official Symbol	Mog
NCBI Protein Information	myelin-oligodendrocyte glycoprotein
UniProt Protein Name	Myelin-oligodendrocyte glycoprotein
UniProt Gene Name	Mog

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
