

Bovine Ornithine Carbamoyl Transferase (OCT) RTU ELISA Kit | OCT rtu elisa kit

Bovine Ornithine Carbamoyl Transferase (OCT) ELISA Kit

CATALOG #
AAA217541

REACTIVITY
Bovine

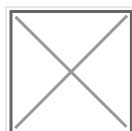

PRODUCT SYNONYMS

Ornithine Carbamoyl Transferase (OCT); Bovine Ornithine Carbamoyl Transferase (OCT) ELISA Kit; OCTD; OTCase; Ornithine Transcarbamylase; Ornithine Carbamoyltransferase; OCT rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Bovine
Sequence Length	354
Assay Type	Sandwich
Samples	Serum, Plasma, Tissue Homogenates or Other Biological Fluids.
Detection Range	0.312-20ng/mL
Sensitivity	0.135ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for OCT rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to OCT. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to OCT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain OCT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of OCT in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	29135271
NCBI GeneID	280887

NCBI Accession #	NP_803453.1
NCBI GenBank Nucleotide #	NM_177487.2
UniProt Accession #	Q9N1U7
Molecular Weight	39,842 Da
NCBI Official Full Name	ornithine carbamoyltransferase, mitochondrial
NCBI Official Synonym Full Names	ornithine carbamoyltransferase
NCBI Official Symbol	OTC
NCBI Protein Information	ornithine carbamoyltransferase, mitochondrial
UniProt Protein Name	Ornithine carbamoyltransferase, mitochondrial
UniProt Gene Name	OTC
UniProt Synonym Gene Names	OTCase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
