

General GSH ELISA Kit | GSH elisa kit

GSH (Glutathione) ELISA Kit

CATALOG #
AAA21787

REACTIVITY
General

PRODUCT SYNONYMS

GSH; GSH (Glutathione) ELISA Kit; GSH elisa kit

PRODUCT SPECIFICATIONS

Reactivity	General
Specificity	This kit recognizes GnRH in samples. No significant cross-reactivity or interference between GnRH and analogues was observed.
Sequence Length	225
Samples	Serum, Plasma And Other Biological Fluids
Assay Type	Quantitative Competitive
Detection Range	15.63-1000pg/mL
Sensitivity	9.38pg/mL.
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, mid range and high level GnRH were tested 20 times on one plate, respectively
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, mid range and high level GnRH were tested on 3 different plates, 20 replicates in each plate.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for GSH elisa kit	Intended Uses: This ELISA kit applies to the in vitro quantitative determination of GnRH concentrations in serum, plasma and other biological fluids. Principle of the Assay: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with GnRH. During the reaction, GnRH in the sample or standard competes with a fixed amount of GnRH on the solid phase supporter for sites on the Biotinylated Detection Ab specific to GnRH. Excess conjugate and unbound sample or standard are washed from the plate, and Avidin conjugated to Horseradish Peroxidase (HRP) are added to each microplate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color change is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The concentration of GnRH in the samples is then determined by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	143347058
Molecular Weight	24,129 Da
NCBI Official Full Name	Gsh, partial
UniProt Protein Name	Gsh
UniProt Entry Name	A6YB91_PLADU

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
