

Human Riboflavin Kinase (RFK) RTU ELISA Kit | RFK rtu elisa kit

Human Riboflavin Kinase (RFK) ELISA Kit

CATALOG #
AAA218173

REACTIVITY
Human

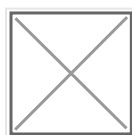

PRODUCT SYNONYMS

Riboflavin Kinase (RFK); Human Riboflavin Kinase (RFK) ELISA Kit; RIFK; Flavokinase; ATP:riboflavin 5'-phosphotransferase; RFK rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	155
Assay Type	Sandwich
Samples	Tissue Homogenates, Cell Lysates or Other Biological Fluids.
Detection Range	0.781-50ng/mL
Sensitivity	0.27ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for RFK rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to RFK. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to RFK. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain RFK, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of RFK in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	269973877
NCBI GeneID	55312

NCBI Accession #	NP_060809.3
NCBI GenBank Nucleotide #	NM_018339.5
UniProt Accession #	Q969G6 ; Q5JSG9 ; Q9NUT7
Molecular Weight	17,623 Da
NCBI Official Full Name	riboflavin kinase
NCBI Official Synonym Full Names	riboflavin kinase
NCBI Official Symbol	RFK
NCBI Official Synonym Symbols	RIFK
NCBI Protein Information	riboflavin kinase
UniProt Protein Name	Riboflavin kinase
UniProt Gene Name	RFK

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
