

Rat Thyroid Stimulating Hormone Receptor (TSHR) RTU ELISA Kit | TSHR rtu elisa kit

Rat Thyroid Stimulating Hormone Receptor (TSHR) ELISA Kit

CATALOG #
AAA219027

REACTIVITY
Rat

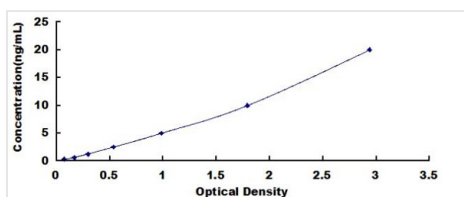

PRODUCT SYNONYMS

Thyroid Stimulating Hormone Receptor (TSHR); Rat Thyroid Stimulating Hormone Receptor (TSHR) ELISA Kit; LGR3; HTSHR-I; Thyrotropin Receptor; TSH Receptor; TSHR rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Sequence Length	764
Assay Type	Sandwich
Samples	Tissue Homogenates, Cell Lysates or Other Biological Fluids.
Detection Range	0.312-20ng/mL
Sensitivity	0.131ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for TSHR rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to TSHR. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to TSHR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain TSHR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of TSHR in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	6981680
NCBI GeneID	25360
NCBI Accession #	NP_037020.1
NCBI GenBank Nucleotide #	NM_012888.1
UniProt Accession #	P21463
Molecular Weight	86,475 Da
NCBI Official Full Name	thyrotropin receptor
NCBI Official Synonym Full Names	thyroid stimulating hormone receptor
NCBI Official Symbol	Tshr
NCBI Official Synonym Symbols	TSHRA
NCBI Protein Information	thyrotropin receptor
UniProt Protein Name	Thyrotropin receptor
UniProt Gene Name	Tshr
UniProt Synonym Gene Names	TSH-R

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
