

Human Uroporphyrinogen III Synthase (UROS) RTU ELISA Kit | UROS rtu elisa kit

Human Uroporphyrinogen III Synthase (UROS) ELISA Kit

CATALOG #
AAA219120

REACTIVITY
Human

PRODUCT SYNONYMS

Uroporphyrinogen III Synthase (UROS); Human Uroporphyrinogen III Synthase (UROS) ELISA Kit; UROIIS; Hydroxymethylbilane hydrolyase; Uroporphyrinogen-III cosynthase; UROS rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	265
Assay Type	Sandwich
Samples	Serum, Plasma, Tissue Homogenates or Other Biological Fluids.
Detection Range	0.312-20ng/mL
Sensitivity	0.114ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for UROS rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to UROS. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to UROS. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain UROS, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of UROS in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	4557873
NCBI GeneID	7390

NCBI Accession #	NP_000366.1
NCBI GenBank Nucleotide #	NM_000375.2
UniProt Accession #	P10746; Q9H2T1; B2RC13; D3DRF7
Molecular Weight	28,628 Da
NCBI Official Full Name	uroporphyrinogen-III synthase isoform 2
NCBI Official Synonym Full Names	uroporphyrinogen III synthase
NCBI Official Symbol	UROS
NCBI Official Synonym Symbols	UROIIIS
NCBI Protein Information	uroporphyrinogen-III synthase
UniProt Protein Name	Uroporphyrinogen-III synthase
UniProt Gene Name	UROS
UniProt Synonym Gene Names	UROIIIS; UROS

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
