

Human Vesicular Acetylcholine Transporter (VACHT) RTU ELISA Kit | VACHT rtu elisa kit

Human Vesicular Acetylcholine Transporter (VACHT) ELISA Kit

CATALOG #
AAA219127

REACTIVITY
Human

PRODUCT SYNONYMS

Vesicular Acetylcholine Transporter (VACHT); Human Vesicular Acetylcholine Transporter (VACHT) ELISA Kit; SLC18A3; Solute Carrier Family 18 Member 3; Vesicular Acetylcholine; VACHT rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	532
Assay Type	Sandwich
Samples	Tissue Homogenates or Other Biological Fluids.
Detection Range	0.312-20ng/mL
Sensitivity	0.117ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for VACHT rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to VACHT. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to VACHT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain VACHT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of VACHT in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	118582257
NCBI GeneID	6572
NCBI Accession #	NP_003046.2
NCBI GenBank Nucleotide #	NM_003055.2
UniProt Accession #	Q16572; B2R7S1
Molecular Weight	56,903 Da
NCBI Official Full Name	vesicular acetylcholine transporter
NCBI Official Synonym Full Names	solute carrier family 18 member A3
NCBI Official Symbol	SLC18A3
NCBI Official Synonym Symbols	CMS21; VACHT
NCBI Protein Information	vesicular acetylcholine transporter
UniProt Protein Name	Vesicular acetylcholine transporter
UniProt Gene Name	SLC18A3
UniProt Synonym Gene Names	VACHT; VACHT

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
