### PRODUCT SYNONYMS

ZNF187; Polyclonal Antibody; Rabbit anti-ZNF187 Antibody; Zinc finger and SCAN domain-containing protein 26; Protein SRE-ZBP; Zinc finger protein 187; anti-ZNF187 antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                                                                       |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                                                                |
| Reactivity                                       | Human, Mouse                                                                                                                          |
| Clonality                                        | Polyclonal                                                                                                                            |
| Purity/Purification                              | The antibody was purified by immunogen affinity chromatography.                                                                       |
| Form/Format                                      | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                             |
| Concentration                                    | 1mg/mL (varies by lot)                                                                                                                |
| Applicable Applications for anti-ZNF187 antibody | IC (Immunochemistry), IF (Immunofluorescence), WB (Western Blot)                                                                      |
| Immunogen                                        | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human ZNF187. The exact sequence is proprietary. |
| Preparation and Storage                          | Store at -20 degree C. Avoid repeated freeze/thaw cycles.                                                                             |

### IMAGES

#### IF (Immunofluorescence)

Immunofluorescent analysis of ZNF187 staining in HL60 cells. Formalin-fixed cells were permeabilized with 0.1% Triton X-100 in TBS for 5-10 minutes and blocked with 3% BSA-PBS for 30 minutes at room temperature. Cells were probed with the primary antibody in 3% BSA-PBS and incubated overnight at 4 °C in a humidified chamber. Cells were washed with PBST and incubated with a DyLight 594-conjugated secondary antibody (red) in PBS at room temperature in the dark.

#### WB (Western Blot)

Western blot analysis of ZNF187 expression in HL60 (A), SP2/O (B) whole cell lysates.
