

## Rabbit anti-Human NKTR Polyclonal Antibody | anti-NKTR antibody

Rabbit anti-NKTR Antibody

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS                                           |
|-----------|--------|------------|--------------------------------------------------------|
| AAA220623 | Rabbit | Human      | Immunofluorescence, Immunohistochemistry, Western Blot |

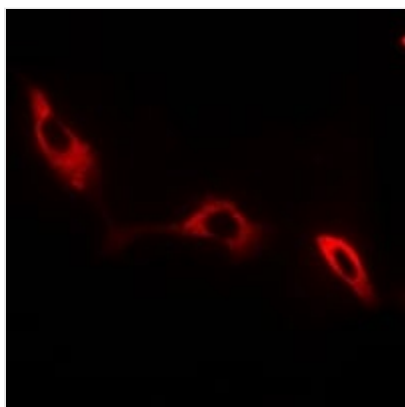

### PRODUCT SYNONYMS

NKTR; Polyclonal Antibody; Rabbit anti-NKTR Antibody; NK-tumor recognition protein; NK-TR protein; Natural-killer cells cyclophilin-related protein; anti-NKTR antibody

### PRODUCT SPECIFICATIONS

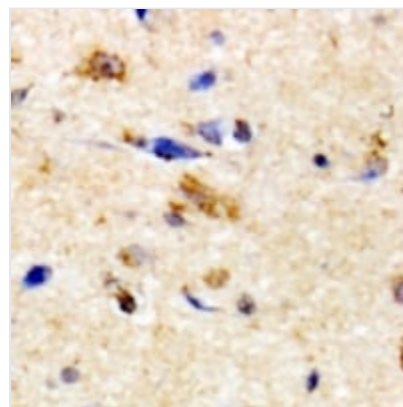

|                                                |                                                                                                                                     |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                                              |
| Reactivity                                     | Human                                                                                                                               |
| Clonality                                      | Polyclonal                                                                                                                          |
| Purity/Purification                            | The antibody was purified by immunogen affinity chromatography.                                                                     |
| Form/Format                                    | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                           |
| Concentration                                  | 1mg/mL (varies by lot)                                                                                                              |
| Applicable Applications for anti-NKTR antibody | IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)                                                              |
| Immunogen                                      | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human NKTR. The exact sequence is proprietary. |
| Preparation and Storage                        | Store at -20 degree C. Avoid repeated freeze/thaw cycles.                                                                           |

### IMAGES

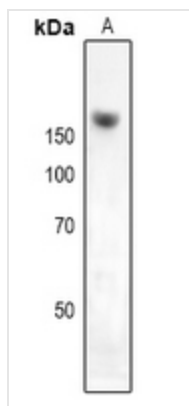

#### IF (Immunofluorescence)

Immunofluorescent analysis of NKTR staining in HeLa cells. Formalin-fixed cells were permeabilized with 0.1% Triton X-100 in TBS for 5-10 minutes and blocked with 3% BSA-PBS for 30 minutes at room temperature. Cells were probed with the primary antibody in 3% BSA-PBS and incubated overnight at 4 °C in a humidified chamber. Cells were washed with PBST and incubated with Alexa Fluor 647-conjugated secondary antibody (red) in PBS at room temperature in the dark.

#### IHC (Immunohistochemistry)

Immunohistochemical analysis of NKTR staining in human brain formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

#### WB (Western Blot)

Western blot analysis of NKTR expression in HEK293T (A) whole cell lysates.

## ADDITIONAL INFORMATION

Product Categories/Family for anti-NKTR antibody
