

## Rabbit Apolipoprotein E Polyclonal Antibody | anti-APOE antibody

Rabbit anti-Apolipoprotein E Antibody

|                               |                       |                                                |                                                           |
|-------------------------------|-----------------------|------------------------------------------------|-----------------------------------------------------------|
| CATALOG #<br><b>AAA221125</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat, Monkey</b> | APPLICATIONS<br><b>Immunohistochemistry, Western Blot</b> |
|-------------------------------|-----------------------|------------------------------------------------|-----------------------------------------------------------|

### PRODUCT SYNONYMS

Apolipoprotein E; Polyclonal Antibody; Rabbit anti-Apolipoprotein E Antibody; Apo-E; anti-APOE antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                                 |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                                                          |
| Reactivity                                     | Human, Mouse, Rat, Monkey                                                                                                                       |
| Clonality                                      | Polyclonal                                                                                                                                      |
| Purity/Purification                            | The antibody was purified by immunogen affinity chromatography.                                                                                 |
| Form/Format                                    | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                                       |
| Concentration                                  | 1mg/mL (varies by lot)                                                                                                                          |
| Applicable Applications for anti-APOE antibody | IHC (Immunohistochemistry), WB (Western Blot)                                                                                                   |
| Immunogen                                      | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human Apolipoprotein E. The exact sequence is proprietary. |
| Preparation and Storage                        | Store at -20 degree C. Avoid repeated freeze/thaw cycles.                                                                                       |

### IMAGES

#### IHC (Immunohistochemistry)

Immunohistochemical analysis of Apolipoprotein E staining in human lung cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

#### WB (Western Blot)

Western blot analysis of Apolipoprotein E expression in HeLa (A), HepG2 (B), NIH3T3 (C), PC12 (D) whole cell lysates.
