| CATALOG #<br><b>AAA221687</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>Immunohistochemistry, Western Blot</b> |
|-------------------------------|-----------------------|----------------------------------------|-----------------------------------------------------------|

### PRODUCT SYNONYMS

Hepassocin; Polyclonal Antibody; Rabbit anti-Hepassocin Antibody; HFREP1; Fibrinogen-like protein 1; HP-041; Hepatocyte-derived fibrinogen-related protein 1; HFREP-1; Liver fibrinogen-related protein 1; LFIRES-1; anti-FGL1 antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                           |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                                                    |
| Reactivity                                     | Human, Mouse, Rat                                                                                                                         |
| Clonality                                      | Polyclonal                                                                                                                                |
| Purity/Purification                            | The antibody was purified by immunogen affinity chromatography.                                                                           |
| Form/Format                                    | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                                 |
| Concentration                                  | 1mg/mL (varies by lot)                                                                                                                    |
| Applicable Applications for anti-FGL1 antibody | IHC (Immunohistochemistry), WB (Western Blot)                                                                                             |
| Immunogen                                      | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human Hepassocin. The exact sequence is proprietary. |
| Preparation and Storage                        | Store at -20 degree C. Avoid repeated freeze/thaw cycles.                                                                                 |

### IMAGES

#### IHC (Immunohistochemistry)

Immunohistochemical analysis of Hepassocin staining in human liver formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

#### WB (Western Blot)

Western blot analysis of Hepassocin expression in rat liver (A), LO2 (B), A549 (C) whole cell lysates.
