

## Rabbit anti-Mouse, Rat Histone H2A.Z Polyclonal Antibody | anti-H2A.Z antibody

Rabbit anti-Histone H2A.Z Antibody

|                               |                       |                                 |                                                           |
|-------------------------------|-----------------------|---------------------------------|-----------------------------------------------------------|
| CATALOG #<br><b>AAA224149</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Mouse, Rat</b> | APPLICATIONS<br><b>Immunohistochemistry, Western Blot</b> |
|-------------------------------|-----------------------|---------------------------------|-----------------------------------------------------------|

### PRODUCT SYNONYMS

Histone H2A.Z; Polyclonal Antibody; Rabbit anti-Histone H2A.Z Antibody; H2AZ; H2A/z; anti-H2A.Z antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                     |
|-------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                              |
| Reactivity                                      | Mouse, Rat                                                                                                          |
| Clonality                                       | Polyclonal                                                                                                          |
| Purity/Purification                             | The antibody was purified by immunogen affinity chromatography.                                                     |
| Form/Format                                     | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.           |
| Concentration                                   | 1mg/mL (varies by lot)                                                                                              |
| Applicable Applications for anti-H2A.Z antibody | IHC (Immunohistochemistry), WB (Western Blot)                                                                       |
| Immunogen                                       | KLH-conjugated synthetic peptide encompassing a sequence of mouse Histone H2A.Z. The exact sequence is proprietary. |
| Preparation and Storage                         | Store at -20 degree C. Avoid repeated freeze/thaw cycles.                                                           |
