

Rabbit THBS2 Polyclonal Antibody | anti-THBS2 antibody

THBS2 antibody

CATALOG # AAA224480	HOST Rabbit	APPLICATIONS Immunohistochemistry, Western Blot
-------------------------------	-----------------------	---

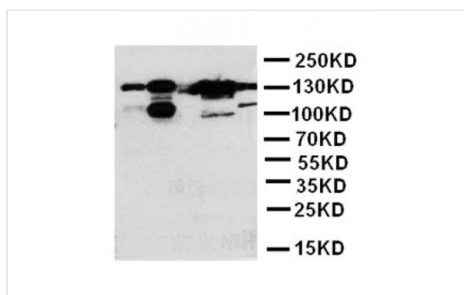

PRODUCT SYNONYMS

THBS2; Polyclonal Antibody; THBS2 antibody; Polyclonal THBS2; Anti-THBS2; Thrombospondin 2; THBS-2; THBS 2; Thrombospondin-2; anti-THBS2 antibody

PRODUCT SPECIFICATIONS

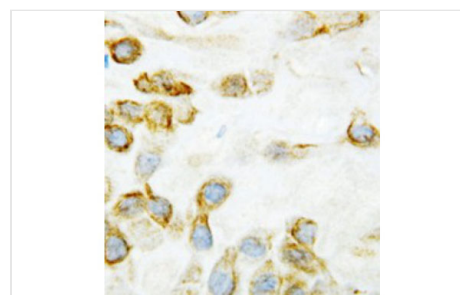

Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Purity/Purification	THBS2 antibody was purified by affinity chromatography
Form/Format	Supplied in lyophilized form
Applicable Applications for anti-THBS2 antibody	IHC (Immunohistochemistry), WB (Western Blot)
Biological Significance	Thrombospondin-2 (THBS2) is a protein that in humans is encoded by the THBS2 gene. The protein encoded by this gene belongs to the thrombospondin family. The THBS2 is mapped to 6q27 and it is located on chromosome 17. The gene was transcribed in fibroblasts, smooth muscle cells, and an osteosarcoma cell line. It functions as a protein inhibitor of tumor growth and angiogenesis and modulates the cell surface properties of mesenchymal cells and be involved in cell adhesion and migration.
Immunogen	THBS2 antibody was raised in Rabbit using a synthetic peptide corresponding to a sequence in the middle region of human THBS2, different from the Rabbit sequence by two amino acids, as the immunogen
Preparation and Storage	Store at 4 degree C for short term storage. For long term storage aliquot and store at -20 degree C, avoid repeated freeze/thaw cycles.

IMAGES

WB (Western Blot)

Lane 1: SMMC Cell Lysate; Lane 2: MCF-7 Cell Lysate

IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded section of Human Placenta Tissue

ADDITIONAL INFORMATION
