

Rabbit VIPR1 Antibody | anti-VIPR1 antibody

Affinity purified Rabbit polyclonal VIPR1 antibody

CATALOG # AAA224596	HOST Rabbit	APPLICATIONS Western Blot
-------------------------------	-----------------------	-------------------------------------

PRODUCT SYNONYMS

VIPR1; Affinity purified Rabbit polyclonal VIPR1 antibody; Polyclonal VIPR1; Anti-VIPR1 antibody; VIPR-1; pacap type ii receptor; VIPR 1; pacap-r-2; pacap receptor; type ii; pituitary adenylate cyclase activating peptide receptor 2; pituitary adenylate cyclase activating polypeptide type ii receptor; anti-VIPR1 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Isotype	IgG
Purity/Purification	VIPR1 antibody was purified by affinity chromatography
Form/Format	Supplied in lyophilized form
Applicable Applications for anti-VIPR1 antibody	WB (Western Blot)
Immunogen	VIPR1 antibody was raised in Rabbit using a synthetic peptide corresponding to a sequence at the C-terminal of human VIPR1, identical to the related rat and Rabbit sequences, as the immunogen
Biological Significance	Vasoactive intestinal polypeptide receptor 1 also known as VPAC1, is a protein, that in humans is encoded by the VIPR1 gene. VPAC1 is a receptor for vasoactive intestinal peptide, a small neuropeptide. Vasoactive intestinal peptide is involved in smooth muscle relaxation, exocrine and endocrine secretion, and water and ion flux in lung and intestinal epithelia.
Preparation and Storage	Store at 4 deg C for short term storage. For long term storage aliquot and store at -20 deg C, avoid repeated freeze/thaw cycles.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
