ADDITIONAL INFORMATION

Related Product Information for anti-RBPMS antibody	RBPMS is a member of the RRM family of RNA-binding proteins. The RRM domain is between 80-100 amino acids in length and family members contain one to four copies of the domain. The RRM domain consists of two short stretches of conserved sequence called RNP1 and RNP2, as well as a few highly conserved hydrophobic residues. RBPMS has a single, putative RRM domain in its N-terminus.
