

## Mouse Oropouche Virus Nucleoprotein Monoclonal Antibody

Oropouche Virus Nucleoprotein

CATALOG #  
AAA226295

HOST  
Mouse

### PRODUCT SYNONYMS

Oropouche Virus Nucleoprotein; Monoclonal Antibody; anti-Oropouche Virus Nucleoprotein antibody

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                  |
|-------------------------|------------------------------------------------------------------------------------------------------------------|
| Host                    | Mouse                                                                                                            |
| Clonality               | Monoclonal                                                                                                       |
| Isotype                 | IgG2a                                                                                                            |
| Clone Number            | 2511052                                                                                                          |
| Purity/Purification     | >90% by SDS-PAGE.                                                                                                |
| Form/Format             | Purified by ion exchange chromatography and presented liquid in 0.015 M potassium phosphate, 0.85% NaCl, pH 7.2. |
| Concentration           | 16.0 mg/ml (varies by lot)                                                                                       |
| Preservative            | 0.05% sodium azide.                                                                                              |
| Preparation and Storage | Store at 2°C - 8°C.                                                                                              |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
