

## Rabbit SAPOSIN-C Polyclonal Antibody | anti-SAPOSIN-C antibody

SAPOSIN-C Antibody

|                               |                       |                                        |                                                                 |
|-------------------------------|-----------------------|----------------------------------------|-----------------------------------------------------------------|
| CATALOG #<br><b>AAA226425</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>Western Blot, Immunoprecipitation, ELISA</b> |
|-------------------------------|-----------------------|----------------------------------------|-----------------------------------------------------------------|

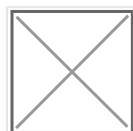

### PRODUCT SYNONYMS

SAPOSIN-C; Polyclonal Antibody; SAPOSIN-C Antibody; anti-SAPOSIN-C antibody

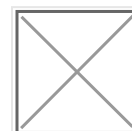

### PRODUCT SPECIFICATIONS

|                                                     |                                                                              |
|-----------------------------------------------------|------------------------------------------------------------------------------|
| Host                                                | Rabbit                                                                       |
| Reactivity                                          | Human, Mouse, Rat                                                            |
| Clonality                                           | Polyclonal                                                                   |
| Isotype                                             | IgG                                                                          |
| Purity/Purification                                 | Affinity Purified. Immobilized antigen affinity chromatography               |
| Concentration                                       | 0.5-1.5ug/ul in antibody stabilization buffer (varies by lot)                |
| Applicable Applications for anti-SAPOSIN-C antibody | WB (Western Blot), IP (Immunoprecipitation), ELISA                           |
| Immunogen                                           | Synthetic peptide taken within amino acid region 460-510 on mouse Saposin-C. |
| Conjugation                                         | Unconjugated                                                                 |
| Preparation and Storage                             | Store at -20 degree C for long term storage                                  |
