### PRODUCT SYNONYMS

Pancreatic Lipase; Monoclonal Antibody; Pancreatic Lipase Antibody; Canine; anti-Pancreatic Lipase antibody

### PRODUCT SPECIFICATIONS

|                                                             |                                                                                         |
|-------------------------------------------------------------|-----------------------------------------------------------------------------------------|
| Host                                                        | Mouse                                                                                   |
| Reactivity                                                  | Canine                                                                                  |
| Clonality                                                   | Monoclonal                                                                              |
| Isotype                                                     | IgG                                                                                     |
| Purity/Purification                                         | >95% by SDS-PAGE                                                                        |
| Form/Format                                                 | Phosphate Buffered Saline, pH 7.0                                                       |
| Concentration                                               | 8.97 mg/ml (varies by lot)                                                              |
| Applicable Applications for anti-Pancreatic Lipase antibody | LF (Lateral Flow), ELISA                                                                |
| Immunogen                                                   | Native Canine Pancreatic Lipase                                                         |
| Preservative                                                | 0.02% Sodium Azide                                                                      |
| Preparation and Storage                                     | Short Term: 2-8 degree C. Long Term: -20 degree C. Avoid repeated freezing and thawing. |

### ADDITIONAL INFORMATION

|                                                               |                                     |
