

## Mouse anti-Human Synuclein, alpha (alpha-Syn) Monoclonal Antibody | anti-alpha-Syn antibody

Synuclein, alpha (alpha-Syn) Antibody

|                               |                      |                            |                                            |
|-------------------------------|----------------------|----------------------------|--------------------------------------------|
| CATALOG #<br><b>AAA226447</b> | HOST<br><b>Mouse</b> | REACTIVITY<br><b>Human</b> | APPLICATIONS<br><b>Lateral Flow, ELISA</b> |
|-------------------------------|----------------------|----------------------------|--------------------------------------------|

### PRODUCT SYNONYMS

Synuclein; alpha (alpha-Syn); Monoclonal Antibody; alpha (alpha-Syn) Antibody; anti-alpha-Syn antibody

### PRODUCT SPECIFICATIONS

|                                                     |                                                                                                                   |
|-----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| Host                                                | Mouse                                                                                                             |
| Reactivity                                          | Human                                                                                                             |
| Clonality                                           | Monoclonal                                                                                                        |
| Isotype                                             | IgG1                                                                                                              |
| Form/Format                                         | Ion Exchange Purified Monoclonal Antibody<br>0.015M Potassium Phosphate, pH 7.2 with 0.85% Sodium Chloride        |
| Concentration                                       | 9.5 mg/mL (varies by lot)                                                                                         |
| Applicable Applications for anti-alpha-Syn antibody | LF (Lateral Flow), ELISA                                                                                          |
| Immunogen                                           | Recombinant human alpha-Synuclein (insect cell expressed)                                                         |
| Preservative                                        | 0.05% Sodium Azide                                                                                                |
| Preparation and Storage                             | Short Term: 2-8 degree C. Long Term: <=-20 degree C. Avoid repeated freezing and thawing.<br>Shipping: Cold Packs |

### ADDITIONAL INFORMATION

|                                                       |               |
|-------------------------------------------------------|---------------|
| Product Categories/Family for anti-alpha-Syn antibody | Miscellaneous |
|-------------------------------------------------------|---------------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
