

alpha-Conotoxin Iml (trifluoroacetate salt) Biochemical

alpha-Conotoxin Iml (trifluoroacetate salt)

CATALOG #
AAA227022

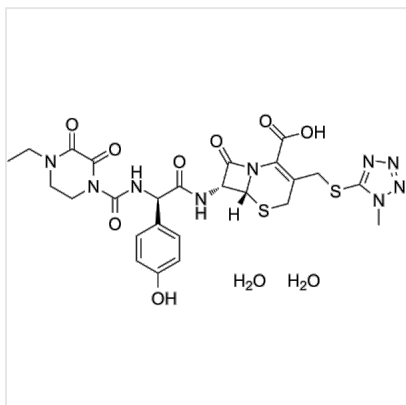

PRODUCT SYNONYMS

alpha-Conotoxin Iml (trifluoroacetate salt); alpha-Conotoxin Iml (trifluoroacetate salt) biochemical

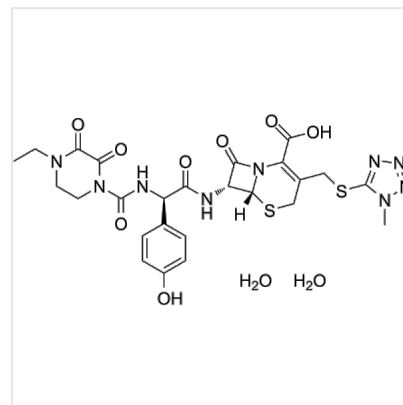

PRODUCT SPECIFICATIONS

Purity/Purification	98%
Solubility	H ₂ O: Soluble <1mg/ml refers to the product slightly soluble or insoluble
Preparation and Storage	Powder: -20 degree C for 3 years In solvent: -80 degree C for 2 years

IMAGES

Structure
Cefoperazone dihydrate, CAS 113826-44-1

Structure
Cefoperazone dihydrate, CAS 113826-44-1

ADDITIONAL INFORMATION

Related Product Information for alpha-Conotoxin Iml (trifluoroacetate salt) biochemical	alpha-Conotoxin Iml is a conotoxin that has been found in <i>C. imperialis</i> and has receptor antagonist and anticancer activities. ¹ It is a peptide antagonist of homomeric alpha7 nicotinic acetylcholine receptors (nAChRs; IC ₅₀ = 220 nM). alpha-Conotoxin Iml is selective for alpha7 nAChRs over alpha2beta2, alpha3beta2, alpha4beta2, alpha2beta4, alpha3beta4, alpha4beta4, and alpha1beta1gamma delta subunit-containing nAChRs at 5 uM but does inhibit homomeric alpha9 nAChRs (IC ₅₀ = 1,800 nM). Administration of paclitaxel in micelles containing alpha-conotoxin Iml decreases tumor growth in an MCF-7 mouse xenograft model. ² Intracerebroventricular, but not intraperitoneal, administration of alpha-conotoxin Iml (20 nmol/animal) induces seizures in rats. ³
