

Defensin HNP-3(trifluoroacetate salt) Biochemical

Defensin HNP-3 (human)(trifluoroacetate salt)

CATALOG #
AAA227375

PRODUCT SYNONYMS

Defensin HNP-3(trifluoroacetate salt); Defensin HNP-3 (human)(trifluoroacetate salt); Defensin HNP-3(trifluoroacetate salt) biochemical

PRODUCT SPECIFICATIONS

Purity/Purification	98%
Solubility	H ₂ O: 1 mg/mL <1mg/ml refers to the product slightly soluble or insoluble
Preparation and Storage	Powder: -20 degree C for 3 years In solvent: -80 degree C for 2 years

IMAGES

Structure
Cu(II) protoporphyrin IX, CAS 14494-37-2

Structure
Cu(II) protoporphyrin IX, CAS 14494-37-2

ADDITIONAL INFORMATION

Related Product Information for Defensin HNP-3(trifluoroacetate salt) biochemical	Defensin HNP-3 is a peptide secreted by human polymorphonuclear leukocytes (PMNs) that has antimicrobial properties. It induces lysis of mammalian cells when used at a concentration of 25 ug/mL. It also inhibits growth of <i>E. faecalis</i> (ED ₅₀ = 100 nM) and clinical isolates of <i>P. aeruginosa</i> (MIC ₉₀ = 4 uM). HNP-3 binds to recombinant HIV-1 envelope glycoprotein (gp120) and human CD4 (K _d s = 52.8 and 34.9 nM, respectively). It also binds to recombinant, immobilized human surfactant protein D (SP-D; K _d = 55.7 nM) and inhibits focus formation in Madin-Darby canine kidney (MDCK) cells infected with influenza A virus (IAV).

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
