

## Antibacterial agent 41 Biochemical

Antibacterial agent 41

CATALOG #  
**AAA227675**

### PRODUCT SYNONYMS

Antibacterial agent 41; Antibacterial agent 41 biochemical

### PRODUCT SPECIFICATIONS

|                         |                                                                          |
|-------------------------|--------------------------------------------------------------------------|
| Purity/Purification     | 98%                                                                      |
| CAS                     | 1426572-45-3                                                             |
| Solubility              | <1mg/ml refers to the product slightly soluble or insoluble              |
| Preparation and Storage | Powder: -20 degree C for 3 years<br>In solvent: -80 degree C for 2 years |
