

## Mouse Dehydroepiandrosterone Monoclonal Antibody | anti-DHEA antibody

Mouse anti-Dehydroepiandrosterone monoclonal antibody

|                               |                      |                              |
|-------------------------------|----------------------|------------------------------|
| CATALOG #<br><b>AAA230802</b> | HOST<br><b>Mouse</b> | APPLICATIONS<br><b>ELISA</b> |
|-------------------------------|----------------------|------------------------------|

### PRODUCT SYNONYMS

Dehydroepiandrosterone; Monoclonal Antibody; Mouse anti-Dehydroepiandrosterone monoclonal antibody; anti-DHEA antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                                                                                                                                           |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Mouse                                                                                                                                                                                                                                                     |
| Clonality                                      | Monoclonal                                                                                                                                                                                                                                                |
| Specificity                                    | No significant cross-reactivity or interference was observed                                                                                                                                                                                              |
| Purity/Purification                            | >95% by Caprylic Acid Ammonium Sulfate Precipitation purified                                                                                                                                                                                             |
| Form/Format                                    | Liquid                                                                                                                                                                                                                                                    |
| Applicable Applications for anti-DHEA antibody | ELISA                                                                                                                                                                                                                                                     |
| Product Note                                   | Applications are user defined. Product is developed and quality control tested in house, data or additional information may be provided upon request. The researcher needs to establish and confirm the suitability of the product for their application. |
| Preparation and Storage                        | Shipped at 4 degree C Upon delivery aliquot and store at -20 degree C or -80 degree C. Avoid repeated freeze.                                                                                                                                             |

### ADDITIONAL INFORMATION

|                                                    |                                                                                                   |
