

## Rabbit anti-Human, Mouse APOM Polyclonal Antibody | anti-APOM antibody

APOM Antibody

| CATALOG # | HOST   | REACTIVITY   | APPLICATIONS                              |
|-----------|--------|--------------|-------------------------------------------|
| AAA232023 | Rabbit | Human, Mouse | Immunohistochemistry, Western Blot, ELISA |

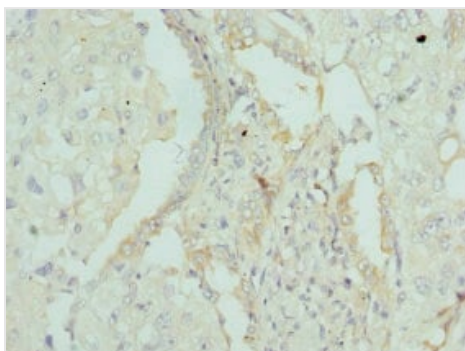

### PRODUCT SYNONYMS

APOM; Polyclonal Antibody; APOM Antibody; Apolipoprotein M; Apo-M; ApoM; Protein G3a; G3A; NG20; HSPC336; anti-APOM antibody

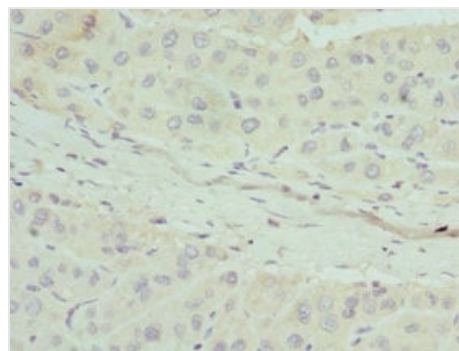

### PRODUCT SPECIFICATIONS

|                                                |                                                               |
|------------------------------------------------|---------------------------------------------------------------|
| Host                                           | Rabbit                                                        |
| Reactivity                                     | Human, Mouse                                                  |
| Clonality                                      | Polyclonal                                                    |
| Isotype                                        | IgG                                                           |
| Purity/Purification                            | Antigen Affinity Purified                                     |
| Form/Format                                    | Liquid; PBS with 0.02% sodium azide, 50% glycerol, pH7.3      |
| Sequence Length                                | 116                                                           |
| Applicable Applications for anti-APOM antibody | IHC (Immunohistochemistry), WB (Western Blot), ELISA          |
| Immunogen                                      | Recombinant human Apolipoprotein M protein (23-188AA)         |
| Immunogen Species                              | Homo sapiens (Human)                                          |
| Conjugate                                      | Non-conjugated                                                |
| Research Area                                  | Signal Transduction                                           |
| Target Names                                   | APOM                                                          |
| Preparation and Storage                        | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze. |
