

## Rabbit anti-Human CRKL Polyclonal Antibody | anti-CRKL antibody

CRKL Antibody

|                               |                       |                            |                                                                |
|-------------------------------|-----------------------|----------------------------|----------------------------------------------------------------|
| CATALOG #<br><b>AAA232446</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human</b> | APPLICATIONS<br><b>Immunofluorescence, Western Blot, ELISA</b> |
|-------------------------------|-----------------------|----------------------------|----------------------------------------------------------------|

### PRODUCT SYNONYMS

CRKL; Polyclonal Antibody; CRKL Antibody; Crk-like protein; anti-CRKL antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                         |
| Reactivity                                     | Human                                                                                                          |
| Clonality                                      | Polyclonal                                                                                                     |
| Isotype                                        | IgG                                                                                                            |
| Purity/Purification                            | >95%, Protein G purified                                                                                       |
| Form/Format                                    | Liquid                                                                                                         |
| Sequence Length                                | 303                                                                                                            |
| Applicable Applications for anti-CRKL antibody | IF (Immunofluorescence), WB (Western Blot), ELISA                                                              |
| Immunogen                                      | Recombinant Human Crk-like protein (98-303AA)                                                                  |
| Preservative                                   | 0.03% Proclin 300                                                                                              |
| Constituents                                   | 50% Glycerol, 0.01M PBS, PH 7.4                                                                                |
| Conjugation                                    | Non-conjugated                                                                                                 |
| Santa Cruz Alternative                         | Potential replacement for Santa Cruz Biotechnology antibody catalog# sc-31693 / sc-31694 / sc-319 / sc-9005    |
| Preparation and Storage                        | Shipped at 4 degree C. Upon delivery aliquot and store at -20 degree C or -80 degree C. Avoid repeated freeze. |

### IMAGES

#### IF (Immunofluorescence)

Immunofluorescent analysis of HeLa cells using AAA232446 at a dilution of 1:100 and Alexa Fluor 488-conjugated AffiniPure Goat Anti-Rabbit IgG(H+L)

#### WB (Western Blot)

Western BlotPositive WB detected in:HepG2 whole cell lysate,HEK293 whole cell lysateAll lanes: CRKL antibody at 3.5ug/mlSecondaryGoat polyclonal to rabbit IgG at 1/50000 dilutionPredicted band size: 34 kDaObserved band size: 34 kDa

### ADDITIONAL INFORMATION
