

## Rabbit anti-Human CUTA Polyclonal Antibody | anti-CUTA antibody

CUTA Antibody

|                               |                       |                            |                                                                        |
|-------------------------------|-----------------------|----------------------------|------------------------------------------------------------------------|
| CATALOG #<br><b>AAA233195</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human</b> | APPLICATIONS<br><b>Immunofluorescence, Immunohistochemistry, ELISA</b> |
|-------------------------------|-----------------------|----------------------------|------------------------------------------------------------------------|

### PRODUCT SYNONYMS

CUTA; Polyclonal Antibody; CUTA Antibody; Protein CutA; Acetylcholinesterase-associated protein; Brain acetylcholinesterase putative membrane anchor; ACHAP; C6orf82; anti-CUTA antibody

### PRODUCT SPECIFICATIONS

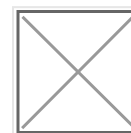

|                                                |                                                                                                                |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                         |
| Reactivity                                     | Human                                                                                                          |
| Clonality                                      | Polyclonal                                                                                                     |
| Isotype                                        | IgG                                                                                                            |
| Purity/Purification                            | >95%, Protein G purified                                                                                       |
| Form/Format                                    | Liquid                                                                                                         |
| Sequence Length                                | 198                                                                                                            |
| Applicable Applications for anti-CUTA antibody | IF (Immunofluorescence), IHC (Immunohistochemistry), ELISA                                                     |
| Immunogen                                      | Recombinant Human Protein CutA protein (33-150AA)                                                              |
| Conjugation                                    | Non-conjugated                                                                                                 |
| Preservative                                   | 0.03% Proclin 300                                                                                              |
| Constituents                                   | 50% Glycerol, 0.01M PBS, pH 7.4                                                                                |
| Preparation and Storage                        | Shipped at 4 degree C. Upon delivery aliquot and store at -20 degree C or -80 degree C. Avoid repeated freeze. |

### IMAGES

#### IHC (Immunohistochemistry)

Immunofluorescent analysis of A549 cells using AAA233195 at a dilution of 1:100 and Alexa Fluor 488-conjugated AffiniPure Goat Anti-Rabbit IgG(H+L)

#### IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded human liver cancer using AAA233195 at dilution of 1:100

#### IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded human colon cancer using AAA233195 at dilution of 1:100

ADDITIONAL INFORMATION

|                                                    |                                                                                          |
|----------------------------------------------------|------------------------------------------------------------------------------------------|
| Related Product Information for anti-CUTA antibody | May form part of a complex of membrane proteins attached to acetylcholinesterase (AChE). |
|----------------------------------------------------|------------------------------------------------------------------------------------------|
