

## Protein MRVI1 (Mrvi1) Recombinant Protein | Mrvi1 recombinant protein

Recombinant Mouse Protein MRVI1 (Mrvi1) , partial

|                               |                                                                 |
|-------------------------------|-----------------------------------------------------------------|
| CATALOG #<br><b>AAA233616</b> | HOST<br><b>E Coli or Yeast or Baculovirus or Mammalian Cell</b> |
|-------------------------------|-----------------------------------------------------------------|

### PRODUCT SYNONYMS

Protein MRVI1 (Mrvi1); Recombinant Mouse Protein MRVI1 (Mrvi1); partial; Mrvi1 recombinant protein

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | E Coli or Yeast or Baculovirus or Mammalian Cell                                                                                                                                                    |
| Purity/Purification     | Greater or equal to 85% purity as determined by SDS-PAGE.                                                                                                                                           |
| Form/Format             | Lyophilized or liquid (Format to be determined during the manufacturing process)                                                                                                                    |
| Sequence Positions      | 451-550aa; Partial                                                                                                                                                                                  |
| Sequence                | NLVGFKLPEL SEAAEQDKGV SPELAPAAEE EESKSGLDVM PNISDILLRK LRVHKSLTGS APPLTEKEVE<br>NVFVQLSLAF RNDSTYLESR INQAERERNL                                                                                    |
| Species                 | Mus musculus (Mouse)                                                                                                                                                                                |
| Preparation and Storage | Store at -20 degrees C. For long-term storage, store at -20 degrees C or -80 degrees C. Store working aliquots at 4 degrees C for up to one week. Repeated freezing and thawing is not recommended. |
