ADDITIONAL INFORMATION

Related Product Information for anti-SNRNP70 antibody	This is a rabbit polyclonal antibody against SNRNP70. It was validated on Western Blot using a cell lysate as a positive control. Target Description: SNRNP70 contains 1 RRM (RNA recognition motif) domain and mediates the splicing of pre-mRNA by binding to the loop I region of U1-snRNA. Western blots using two different antibodies against two unique regions of this protein target confirm the same apparent molecular weight in our tests.
